

Ken's Kapers.

A Praying Family. In relation to Ken's homily at Morning Prayer today. - Prayer can be a valued part of the family life, especially with all the different stresses we face with each other in family life. - We are called to learn by word and example, the value and place of prayer in our families day to day experiences. - The example of prayerful Love and Care, even in times of great stress, can never be underestimated. - Julie & I pray several times during a day. These prayers are usually in the morning or at night. Always a short thanksgiving prayer before meals, or even when leaving the house to visit people, or even when we're shopping; Prayer is always a great starter when attending meetings, or at worship, including prayers points needed for family life for our children and their children, These are just a few examples, of including prayer in one's daily routine. - Family is the school of faith, and the place where God dwells in the ordinary everyday world. Remember to start small and eventually you'll find you will increase them daily. A good place to start, is with the Lord's prayer on a daily basis, or maybe this simple prayer, **Pray.** "Jesus, Lord and saviour, help us in our daily routine, and in our family life." Amen.

Prayer of the day.

God of community, whose call is more insistent than ties of family or blood: may we so respect and love those whose lives are linked with ours that we fail not in loyalty to you, but make choices according to your will; through Jesus Christ, our Lord.
